German Democratic Republic

MISCELLANEOUS INFORMATION ON THE AIRFIELD AT WERNEUCHEN

information

[redacted] on the airfield at Werneuchen, which was expanded to its present dimensions in 1951. A jet bomber unit, type TU-10, was assigned to the field in December 1951. The unit also contains twin-engine bombers, type PE-2, and trainer aircraft, type UT-1, as listed below.

[redacted] there was a great deal of aerial activity at the field on the days it was observed and [redacted] there is always a lot of activity at the field. The greatest number of single and formation flights are carried out by the jet bombers. Flying time for the jet bombers varies from 30 to 50 minutes.

50X1-HUM

[redacted] the following additional information:

50X1-HUM
